YOUR PEACE-OF-MIND COMES FIRST

Partnering with the right surgeon and choosing the right implants for you are your core choices when it comes to breast surgery and what drives your overall experience. MENTOR® believes that implants should come with a generous product warranty to ensure you are supported long after the surgery.

MENTOR® stands firmly behind the integrity of our products with our lifetime replacement policy so you can have complete confidence when making MENTOR® MemoryGel® and Contour Profile Gel (CPG™) Breast Implants your choice.

A **Global Leader** in Aesthetic Medicine

As a leading global manufacturer of high quality breast implants with over 30 years of expertise and experience in manufacturing, we strive to provide high-quality products and services to health care professionals and their patients.

MENTOR® is committed to your long-term well-being

Our relationship with you does not end with your surgery.

First and foremost: MENTOR® Breast Implants are **guaranteed for your lifetime***

All recipients of MENTOR® MemoryGel™ Breast Implants and MENTOR® CPG™ Breast Implants implanted in Australia are automatically enrolled in the MENTOR® Product Replacement Policy.* What this means to you is that should a confirmed rupture occur, you are eligible for replacement breast implants in a similar style at no charge.*

MENTOR® Product Replacement Policy: The MENTOR® Product Replacement Policy applies to MENTOR® MemoryGel® Breast Implants and Contour Profile Gel (CPG™) Breast Implants directly from MENTOR® and implanted in Australia as of 1st March 2016. In the event of a Qualifying Rupture (loss of shell integrity), MENTOR® will provide replacement of a MENTOR® Product in the same style as the originally implanted product free of charge for the lifetime of the patient. Please refer to the full terms and conditions of the MENTOR® Lifetime Replacement Policy.

Please read the appropriate patient brochure: **GEL-FILLED BREAST IMPLANT SURGERY: Making an Informed Decision**. This educational brochure provides you with information about the risks and benefits of silicone breast implants. It is very important that you take the time to read and fully understand the brochure, consult with your surgeon, and ask any questions you may have.

HOW THE CLAIM PROCESS WORKS

To file a claim for product replacement and/or financial assistance, your surgeon must contact their dedicated MENTOR[®] Product Ltd specialist or phone Johnson & Johnson Medical Pty Ltd Product Safety Department on 1800 252 194 (option 4) to report the event and organise return of the explanted product.

Required paperwork

We will request your permission to speak with your surgeon to obtain the necessary medical records to verify eligibility for financial assistance.

What your surgeon must send to **MENTOR[®]** and by when:

For either replacement or financial assistance claims, once your surgeon has contacted, following your revision surgery, MENTOR[®] Product Ltd Specialist or Johnson & Johnson Medical Pty Ltd Product Safety Department, the decontaminated explanted MENTOR[®] breast implants will be collected from your hospital. The collected implants will be sent directly to the site of manufacture for analysis. This must be done within 60 days of explantation. Your claim will be reviewed on receipt of the explanted product

Important Safety Information:

MemoryGel® Breast Implants and MENTOR® Saline-Filled Breast Implants are indicated for breast augmentation in women (at least 18 years old) or for breast reconstruction. Breast implant surgery should not be performed in women with active infection anywhere in their body with existing cancer or pre-cancer of their breast who have not received adequate treatment for those conditions or are pregnant or nursing. Breast implants are not lifetime devices and breast implantation is not necessarily a one-time surgery.

CONTOUR PROFILE® Tissue Expanders are used for breast reconstruction following mastectomy. This expander is intended for temporary subcutaneous or submuscular implantation and is not intended for use beyond six months. Do not use the CONTOUR PROFILE® Tissue Expander in patients where an MRI may be needed. The device could be moved by the MRI causing pain or displacement, potentially resulting in a revision surgery. The incidence of extrusion of the expander has been shown to increase when the expander has been placed in injured areas. For detailed indications, contraindications, warning and precautions associated with the use of Tissue Expanders and CPG™ Breast Implants, please refer to the Product Insert Data Sheet provided with each product.
